

rubyfuza 2016

Sponsorship Prospectus

4 - 6 February 2015 | Cape Town, South Africa

Started in 2011, Rubyfuza is still the only Ruby language conference in Africa and has been attracting top local and international Ruby developers for four years now. Rubyfuza does not only focus on experienced programmers, but also on educating and training new, young programmers, with Railsbridge and Coderetreat being amongst the events we've brought to South Africa for the first time. Rubyfuza is a great place to network with passionate software engineers, to recruit talent, and to learn new and exciting techniques and technologies.

Estimated Attendance: ~180

This year we are speaking to a number of exciting international speakers, including Sarah Mei. She's currently the Chief Consultant of DevMynd, where she helps teams refactor their way out of interesting messes. She also teaches object-oriented design with Sandi Metz, is a director of Ruby Central, and co-founded RailsBridge back in the day.

Past speakers include:

Dave Hoover
